Hello Randy,

I appreciate the information. I was curious if some actions would be taken after the earthquake last night. Thank you for following up with me. I look forward to talking with you soon.

Good morning

Would the Osage Minerals Council and DOI partners be available for an update call with EPA Region 6 this Thursday afternoon (4pm) or Friday afternoon (3pm)?

Subject: Can you send me the language from your permits about seismicity contingencies and daily recording of pressure and volume information?

Hi Charles,

Phil is working with our attorneys to develop potential permit modifications in Osage County, and would like to use your OCC permit conditions as a baseline. He is needing the conditions that ensure you can modify their operating conditions in the event that seismicity begins in an area, and he would also like the condition that requires daily recording of pressure and volume data.

Just reply to this message and he will get it. He is off today and tomorrow but will check his email at home. I am on a conference call and will call you when it is over.

Mike
